Manual Test Cases

Job application workflow: HireKiwi QA Engineer assessment

Document	Manual test cases, High priority first, with screenshots
Date	13 October 2026
Systems under test	Live portal https://crew.tinobritty.me/jobs (read-only).

1. Coverage against the brief

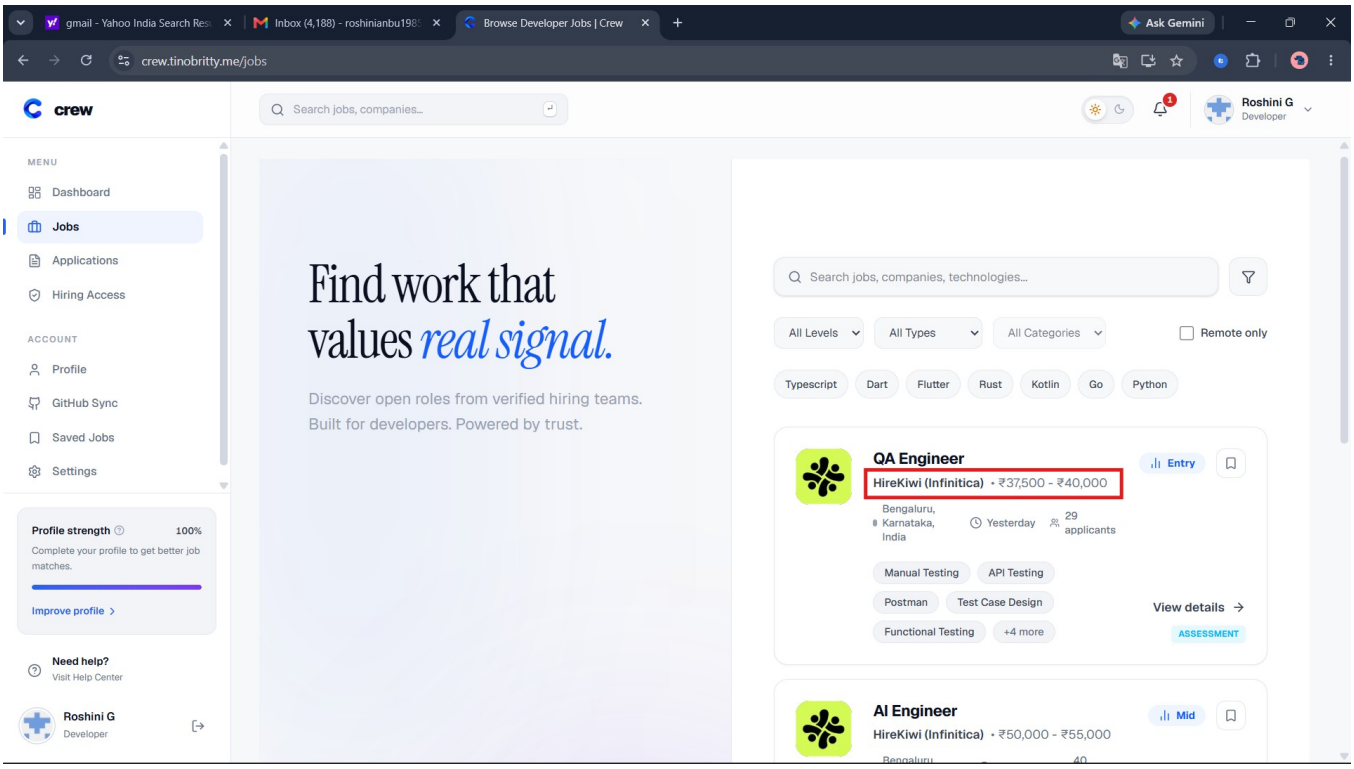

Case type	Count
Positive	14
Negative	5
Boundary	2

Execution order (quick list)

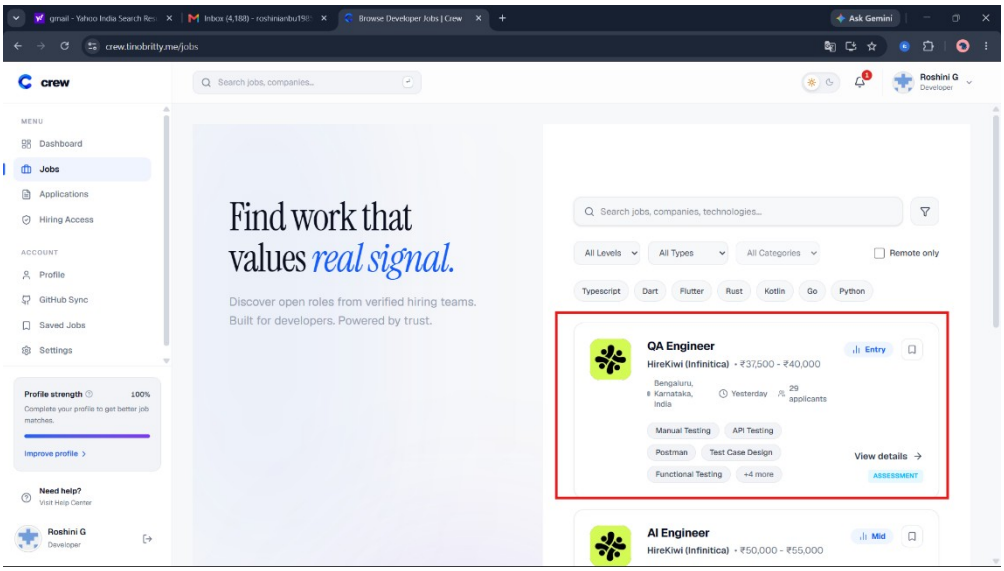

Priority	Case IDs
High	LST-01, LST-03, LST-04, LST-05, LST-07, LST-15, LST-16, LST-21
Medium	LST-02, LST-06, LST-08, LST-11, LST-12, LST-13, LST-17, LST-18, LST-20, XBR-04
Low	LST-09, LST-10, LST-19

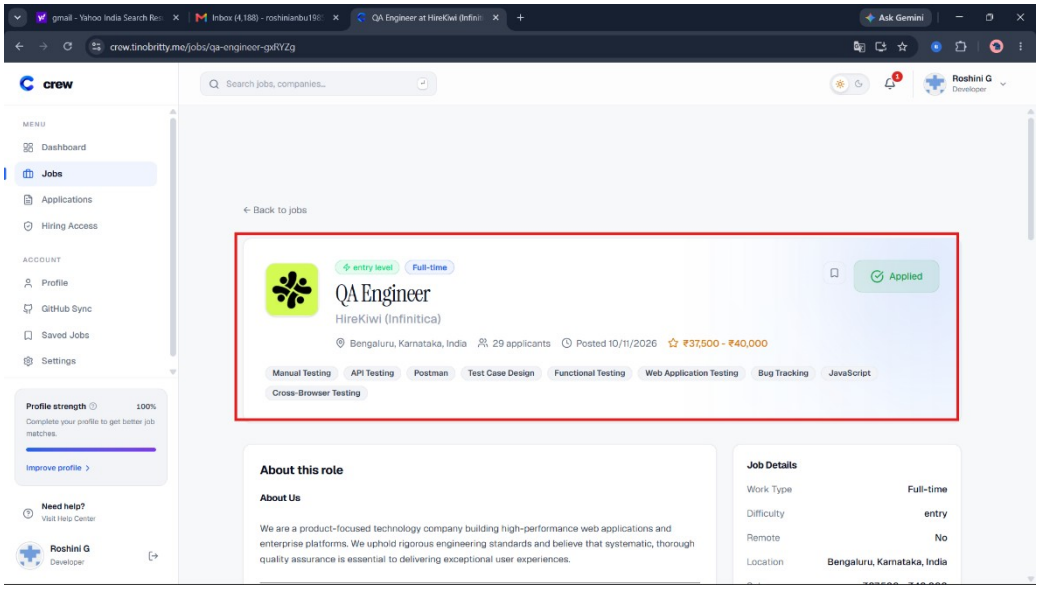

2. High priority cases (8)

LST-01 Salary shows its pay period			
Priority	**High**	**Type**	Positive
Requirement	R1 Job listings	**Environment**	Live portal
Severity if it fails	Major	**Execution**	Manual
Status	**Fail**	**Bug report**	Raised, see Bug Reports
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Note whether you are signed in or signed out. Read-only: nothing is submitted or changed.		
Test data	QA Engineer card		
Steps	1. Open /jobs. 2. Find the QA Engineer card. 3. Read the salary shown on the card.		
Expected result	The salary states its period, for example "per month" or "per year".		
Actual result	Card shows "₹37,500 - ₹40,000" with no period. Assumed monthly (x12 = ₹4.5 to 4.8 lakh a year).		
Notes	Evidence: evidence/live-portal/ev8-qa-one-space.png		

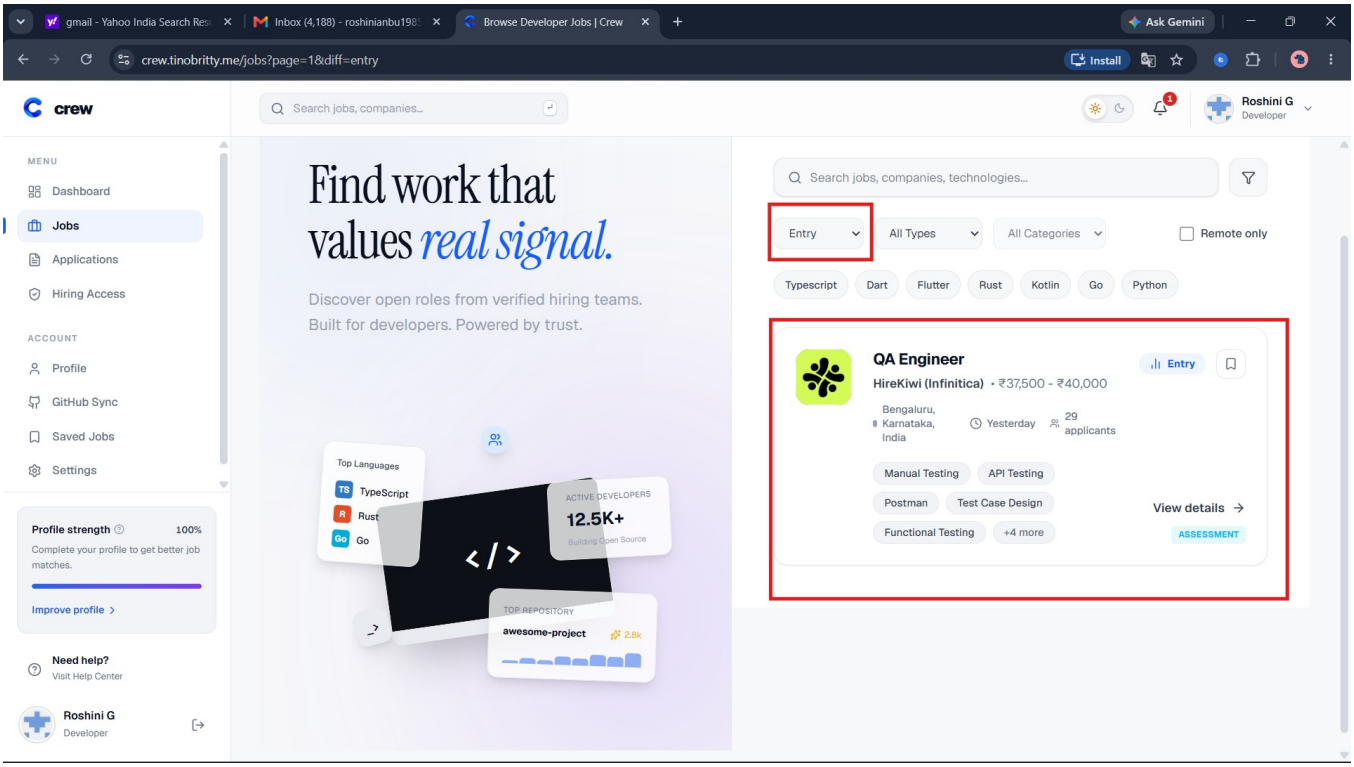

LST-03 Card data matches the detail page			
Priority	**High**	**Type**	Positive
Requirement	R1 Job listings	**Environment**	Live portal
Severity if it fails	Major	**Execution**	Manual
Status	**Pass**	**Bug report**	-
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Note whether you are signed in or signed out. Read-only: nothing is submitted or changed.		
Test data	QA Engineer		
Steps	1. Open /jobs. 2. Note title, company, salary, level and location on the QA Engineer card. 3. Click View details. 4. Compare the same fields on the detail page. 5. Check that a description and an experience requirement are shown.		
Expected result	All fields match. A description and an experience requirement are shown.		
Actual result	Card fields matched the detail page. Description and experience requirement were checked.		

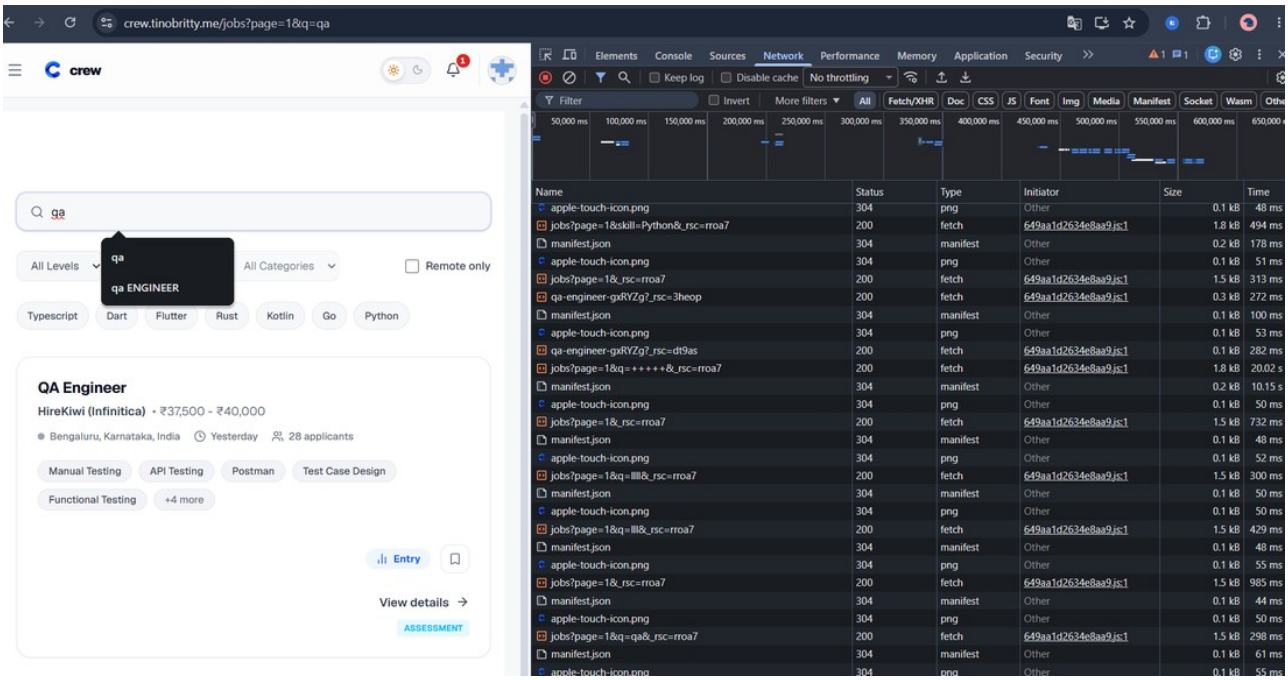

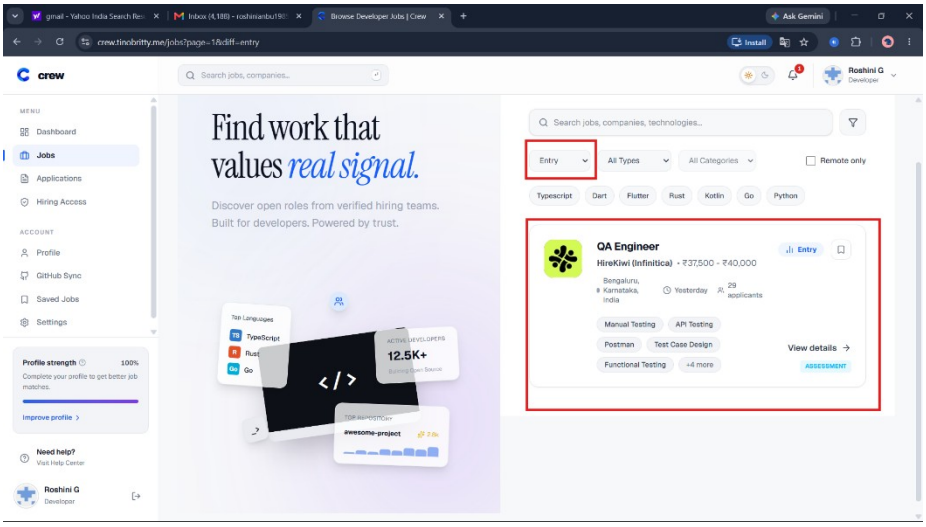

LST-04 Level and Remote filters return correct counts			
Priority	**High**	**Type**	Boundary
Requirement	R1 Job listings	**Environment**	Live portal
Severity if it fails	Major	**Execution**	Manual
Status	**Pass**	**Bug report**	-
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Note whether you are signed in or signed out. Read-only: nothing is submitted or changed.		
Test data	Level: Entry, Mid, Senior, Staff. Remote only. Mid plus Remote only.		
Steps	1. Open /jobs. 2. Pick each level in turn and note the number of jobs. 3. Tick Remote only and note the number. 4. Pick Mid and tick Remote only together.		
Expected result	Entry 1, Mid 3, Senior 0, Staff 0, Remote only 1, Mid plus Remote only 1. Zero results show "No jobs found".		
Actual result	All counts matched the expected values.		

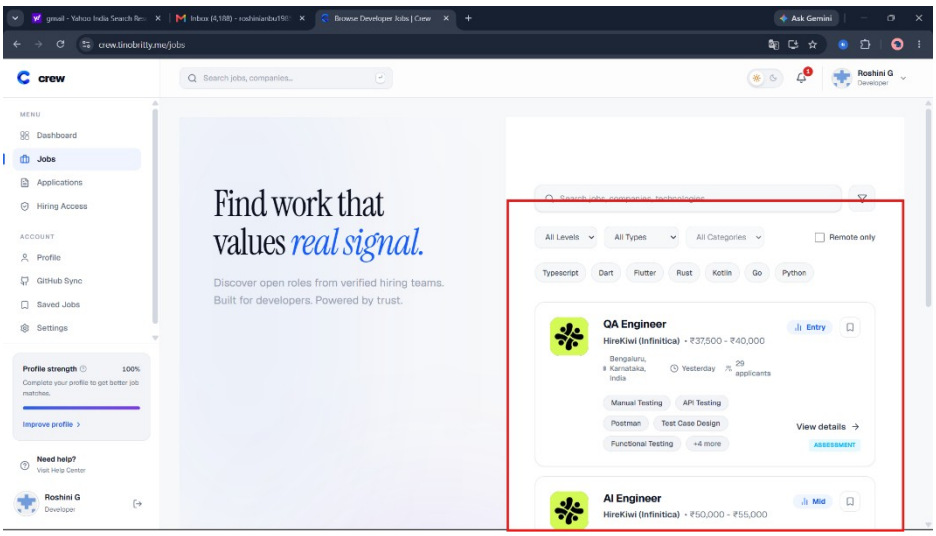

LST-05 Search finds the right job			
Priority	**High**	**Type**	Positive
Requirement	R1 Job listings	**Environment**	Live portal
Severity if it fails	Major	**Execution**	Manual
Status	**Pass**	**Bug report**	-
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Note whether you are signed in or signed out. Read-only: nothing is submitted or changed.		
Test data	Search term: qa		
Steps	1. Open /jobs. 2. Type qa in the search box and press Enter.		
Expected result	Only QA Engineer is listed. The URL contains q=qa.		
Actual result	Only QA Engineer listed. URL was /jobs?q=qa.		
Notes	Evidence: evidence/live-portal/ev1-search-qa-network.png		

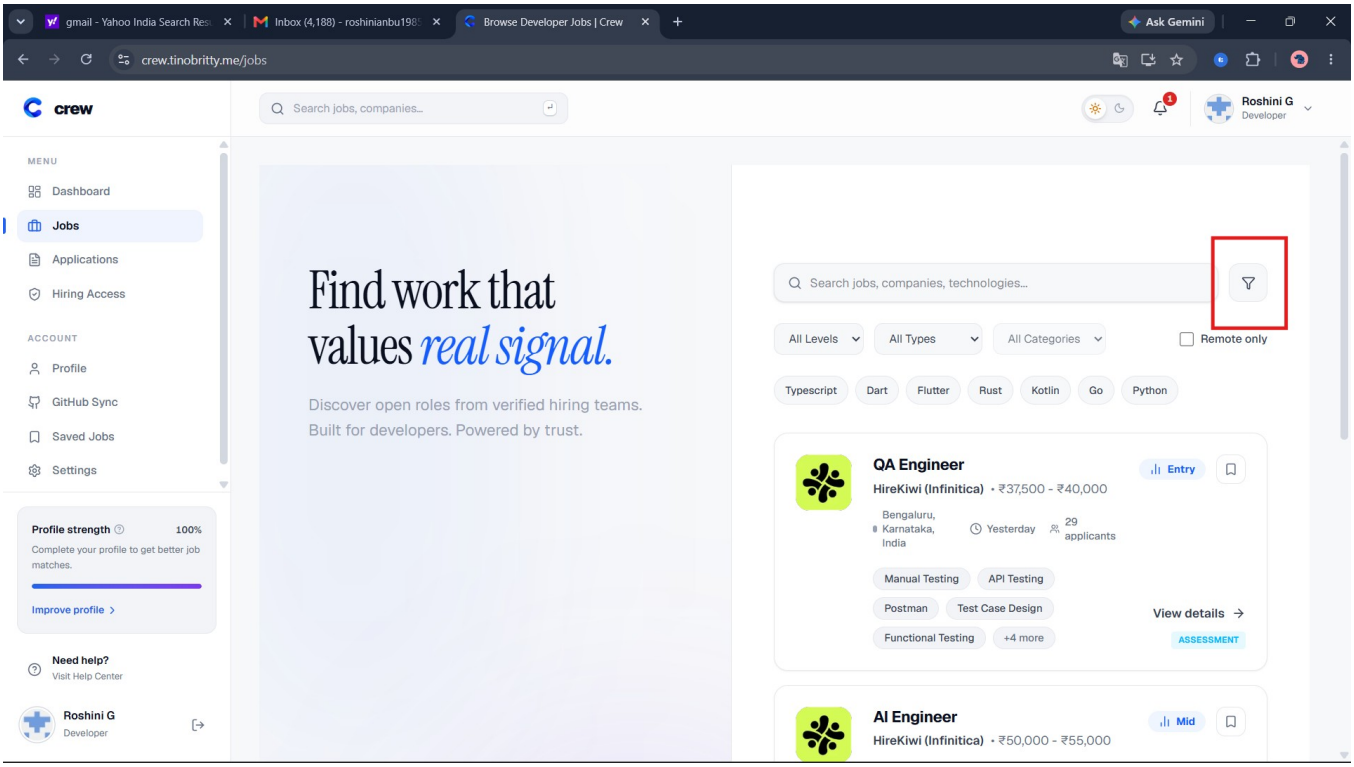

LST-07 Job links open the right role and Back keeps filters			
Priority	**High**	**Type**	Positive
Requirement	R2 Navigation	**Environment**	Live portal
Severity if it fails	Major	**Execution**	Manual
Status	**Fail**	**Bug report**	Raised, see Bug Reports
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Note whether you are signed in or signed out. Read-only: nothing is submitted or changed.		
Test data	Any job; level filter Mid		
Steps	1. Open /jobs. 2. Click a job title and confirm the matching job opens. 3. Go back and click View details on the same job. 4. Apply the Entry filter, open a job, then press Back.		
Expected result	The correct job opens each time. After Back the Entry filter is still applied.		
Actual result	After opening the QA Engineer detail page and pressing Back, the Entry filter resets instead of remaining selected.		

LST-15 Filter button opens the filter options			
Priority	**High**	**Type**	Positive
Requirement	R1 Job listings	**Environment**	Live portal
Severity if it fails	Major	**Execution**	Manual
Status	**Fail**	**Bug report**	Raised, see Bug Reports
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Note whether you are signed in or signed out. Read-only: nothing is submitted or changed.		
Test data	Funnel-shaped filter button beside the search box.		
Steps	1. Open the job listings page. 2. Click the funnel-shaped filter button beside the search box. 3. Observe whether a filter panel, menu, or additional filter options appear. 4. If options appear, check whether they can be used and dismissed.		
Expected result	Clicking the filter button opens the intended filter options, allowing the user to access the available filtering controls.		
Actual result	Clicking the filter button beside the search box did not open any filter options or panel.		

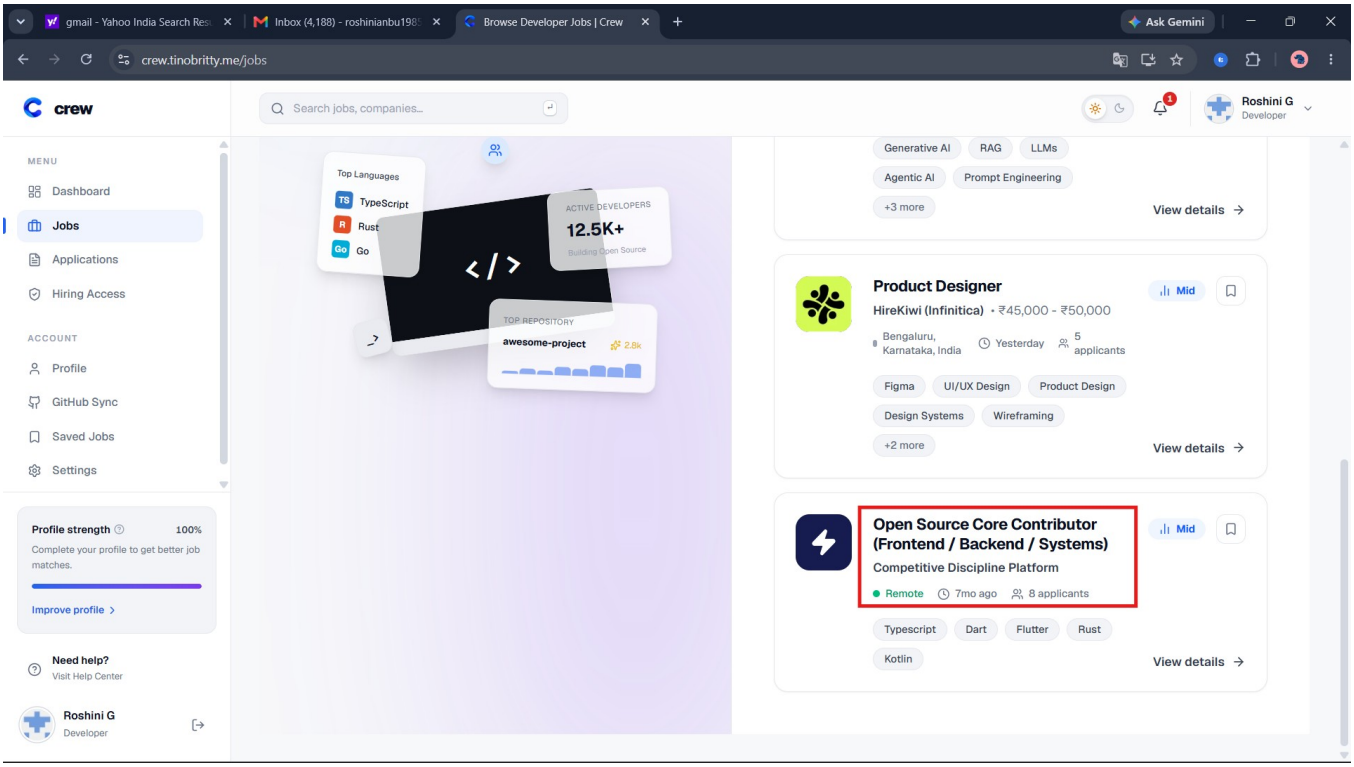

LST-16 Detail page shows a description, responsibilities and a requirements section			
Priority	**High**	**Type**	Positive
Requirement	R1 Job listings	**Environment**	Live portal
Severity if it fails	Minor	**Execution**	Manual
Status	**Pass**	**Bug report**	-
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Read-only: do not submit, save, bookmark or change anything.		
Test data	QA Engineer		
Steps	1. Open the QA Engineer detail page. 2. Check for a role description. 3. Check for a list of responsibilities. 4. Check for a list of requirements or qualifications.		
Expected result	Description, responsibilities and requirements are all present and readable (the brief says candidates "view requirements").		
Actual result	The description, responsibilities, and requirements are clearly provided. The page behaved as expected.		

LST-21 Signed-out user is asked to sign in to apply and nothing is submitted			
Priority	**High**	**Type**	Negative
Requirement	R2 Navigation	**Environment**	Live portal
Severity if it fails	Minor	**Execution**	Manual
Status	**Partially verified**	**Bug report**	-
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Read-only: do not submit, save, bookmark or change anything. Use a signed-out (private) window.		
Test data	QA Engineer		
Steps	1. In a private window open the QA Engineer detail page. 2. Find the apply button. 3. Click it ONCE and stop as soon as the sign-in screen appears. Do not sign in.		
Expected result	The button says "Sign in to Apply" and leads to a sign-in screen. No application is created.		
Actual result	The signed-out user is shown the “Sign in to Apply” button. Signing in is required to proceed with the application.		
Notes	Application submission was not attempted. Testing stopped before sign-in, as required by the read-only testing rules.		

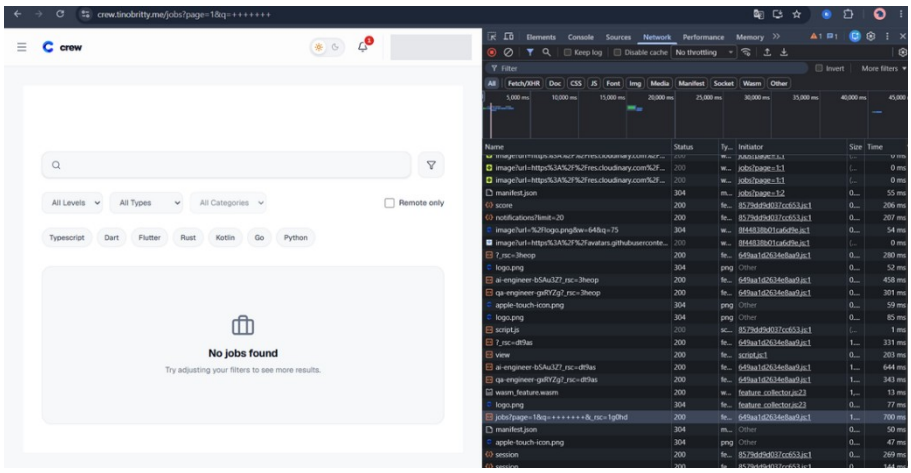

3. Medium priority cases (10)

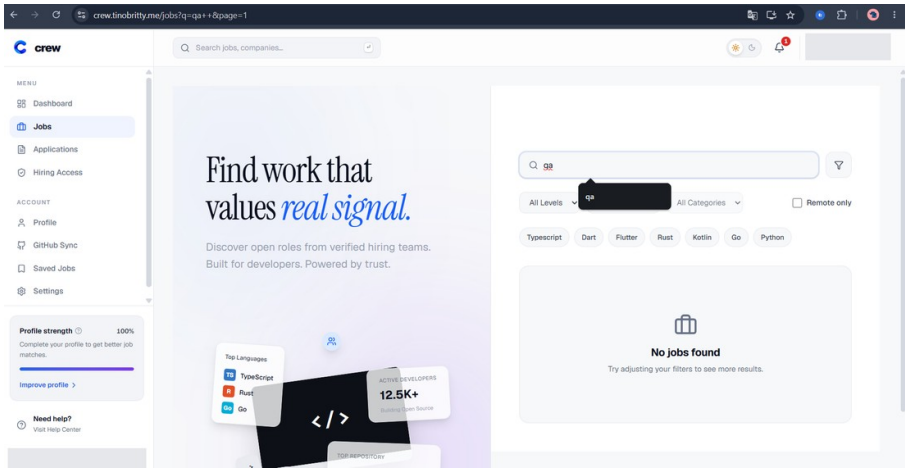

LST-02 A job without salary shows a label			
Priority	**Medium**	**Type**	Negative
Requirement	R1 Job listings	**Environment**	Live portal
Severity if it fails	Minor	**Execution**	Manual
Status	**Fail**	**Bug report**	Raised, see Bug Reports
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Note whether you are signed in or signed out. Read-only: nothing is submitted or changed.		
Test data	Open Source Core Contributor card		
Steps	1. Open /jobs. 2. Find the Open Source Core Contributor card. 3. Look for a salary line.		
Expected result	A label such as "Not disclosed" appears where the salary would be.		
Actual result	No salary line and no label on the card.		
Notes	Evidence: evidence/live-portal/ev9-open-source-no-salary.png		

LST-06 Search ignores extra spaces			
Priority	**Medium**	**Type**	Negative
Requirement	R1 Job listings	**Environment**	Live portal

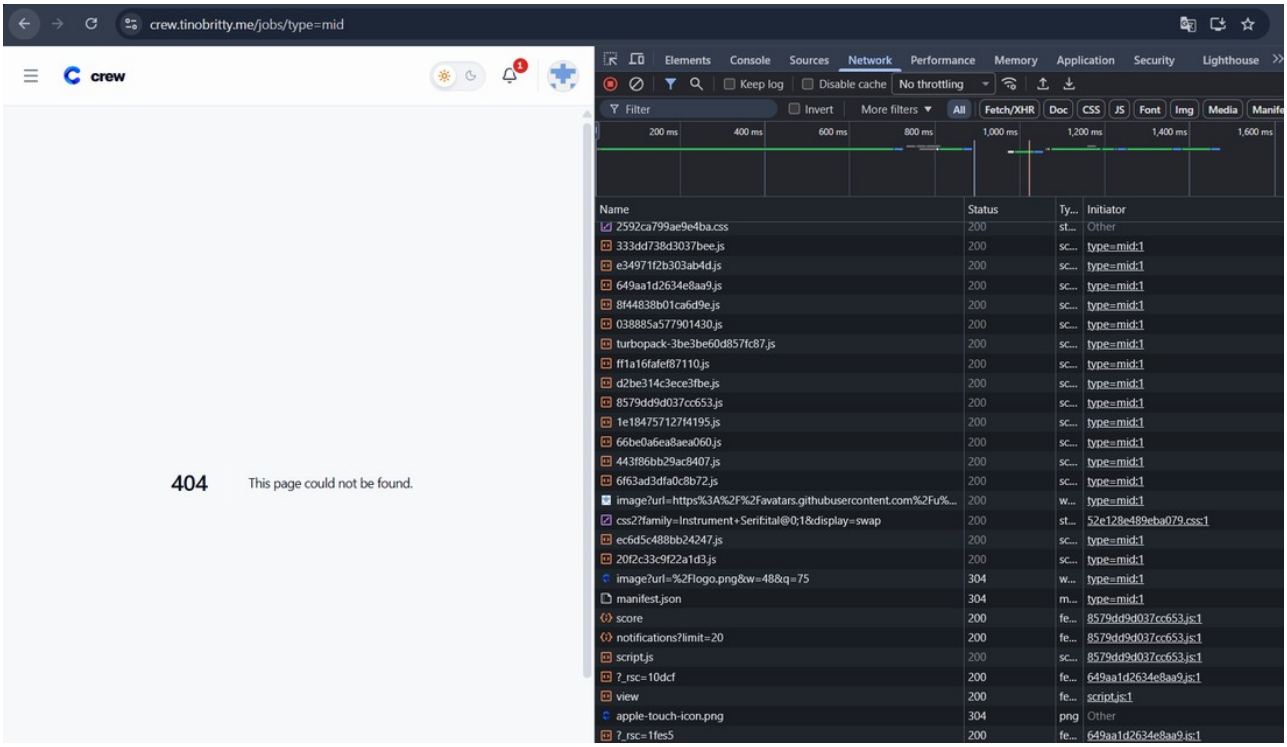

Severity if it fails	Minor	**Execution**	Manual
Status	**Fail**	**Bug report**	Raised, see Bug Reports
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Note whether you are signed in or signed out. Read-only: nothing is submitted or changed.		
Test data	Spaces only (7). "qa" plus 1 trailing space. "qa" plus 2 trailing spaces.		
Steps	1. Open /jobs. 2. Press the spacebar 7 times in the search box and press Enter. 3. Search qa plus one trailing space. 4. Search qa plus two trailing spaces.		
Expected result	Spaces are trimmed. A spaces-only search lists all jobs. Both qa searches list QA Engineer.		
Actual result	Spaces only: "No jobs found" with an empty-looking box. One space: QA Engineer listed. Two spaces: "No jobs found".		
Notes	Evidence: evidence/live-portal/ev4-spaces-only-search.png, ev7-qa-two-spaces.png, ev8-qa-one-space.png		

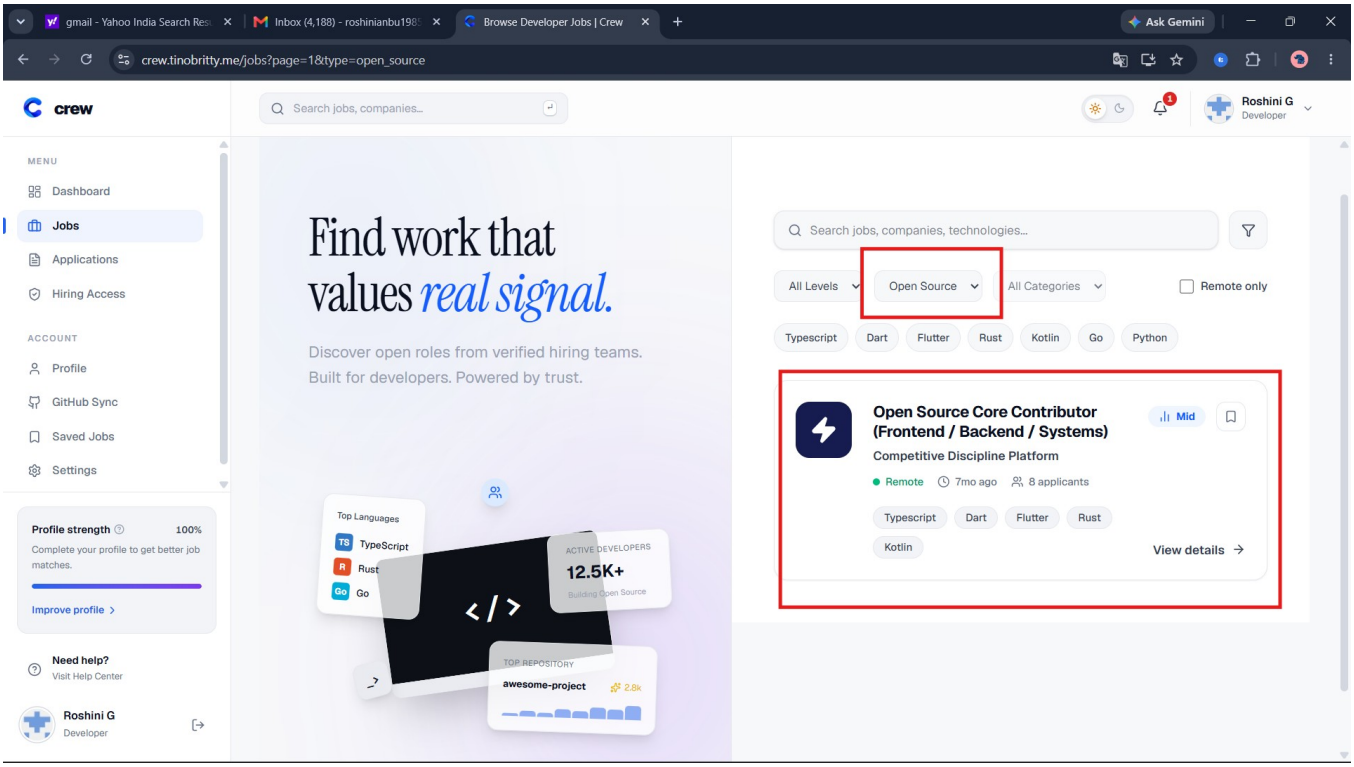

LST-08 Unknown job address shows a 404 page

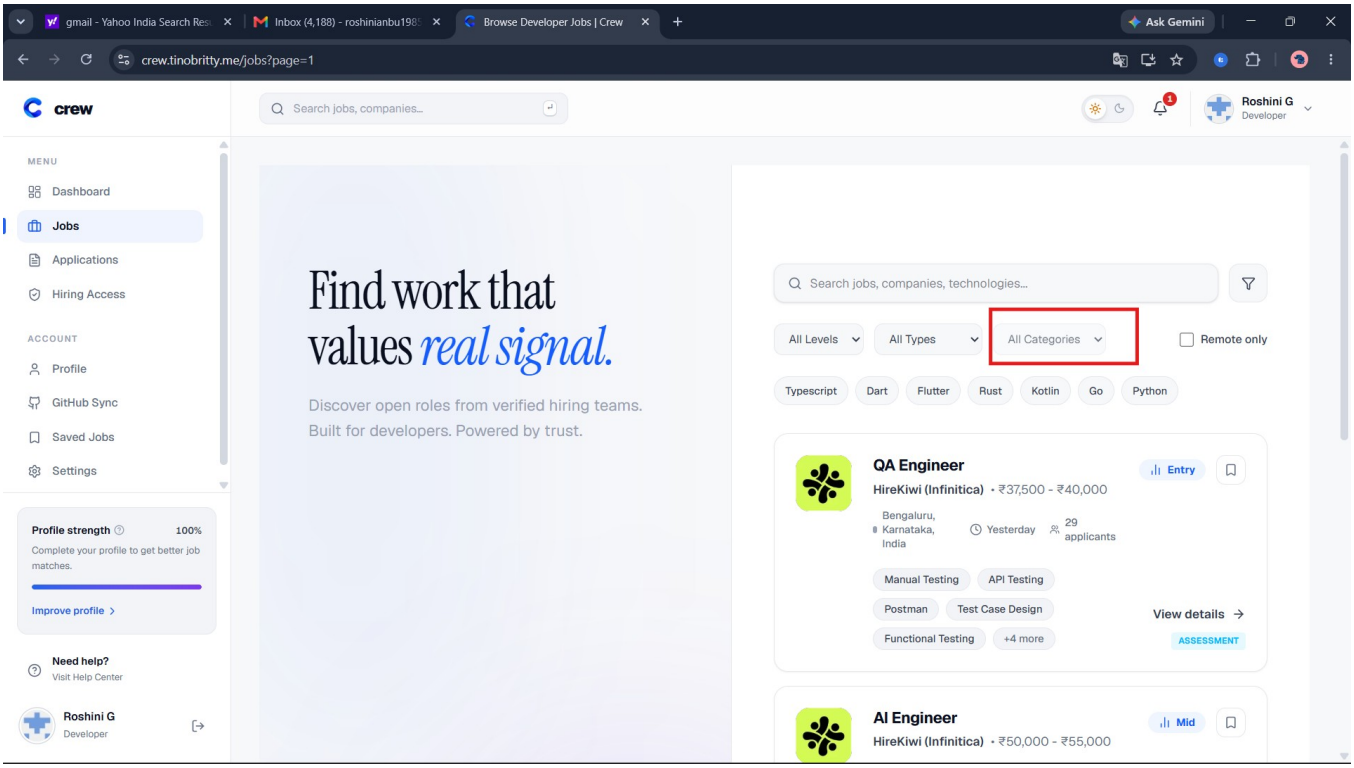

Priority	Medium	Type	Negative
Requirement	R2 Navigation	Environment	Live portal
Severity if it fails	Minor	Execution	Manual
Status	Pass	Bug report	-
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Note whether you are signed in or signed out. Read-only: nothing is submitted or changed.		
Test data	/jobs/type=mid		
Steps	1. Open /jobs/type=mid (a made-up job address).		
Expected result	A clear 404 page appears.		
Actual result	Page showed "404 This page could not be found."		
Notes	Evidence: evidence/live-portal/ev3-fake-url-404.png		

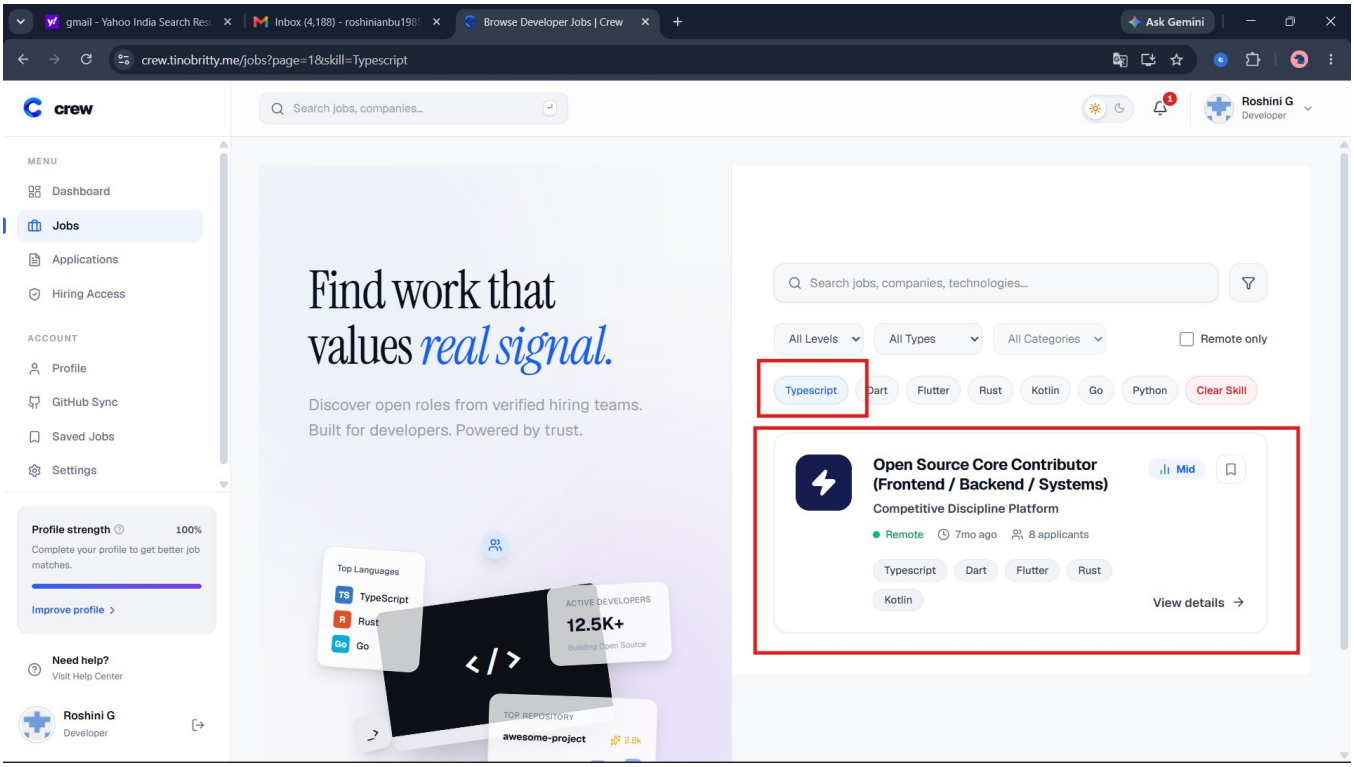

LST-11 Type filter returns only matching jobs			
Priority	**Medium**	**Type**	Positive
Requirement	R1 Job listings	**Environment**	Live portal
Severity if it fails	Major	**Execution**	Manual
Status	**Pass**	**Bug report**	-
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Note whether you are signed in or signed out. Read-only: nothing is submitted or changed.		
Test data	Type dropdown, each option		
Steps	1. Open /jobs. 2. Pick each option in the Type dropdown in turn. 3. Check the jobs listed after each pick.		
Expected result	Only jobs of the chosen type are listed.		
Actual result	Behaved as expected		

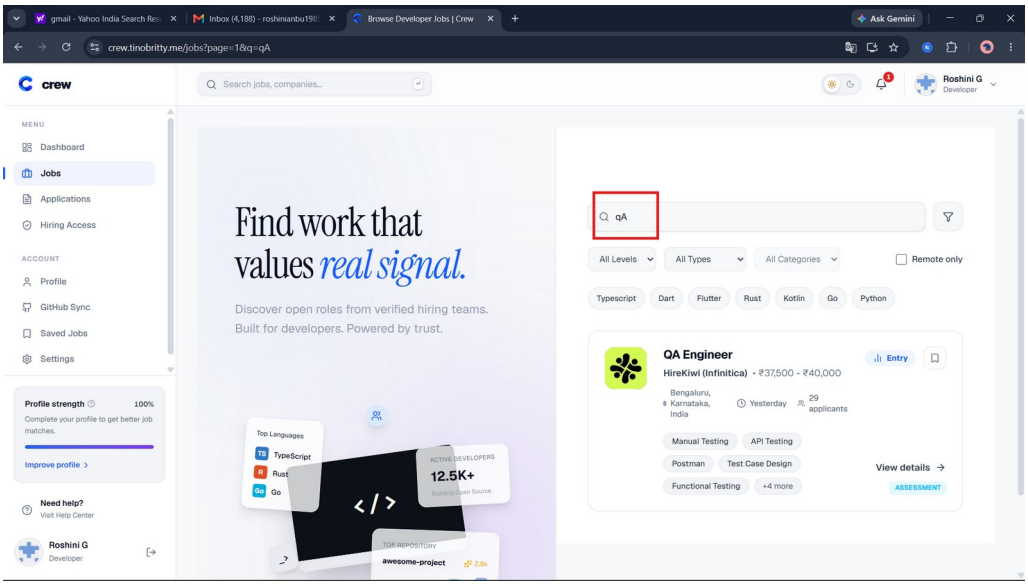

LST-12 Category filter returns only matching jobs			
Priority	**Medium**	**Type**	Positive
Requirement	R1 Job listings	**Environment**	Live portal
Severity if it fails	Major	**Execution**	Manual
Status	**Pass**	**Bug report**	-
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Note whether you are signed in or signed out. Read-only: nothing is submitted or changed.		
Test data	Category dropdown, each option		
Steps	1. Open /jobs. 2. Pick each option in the Category dropdown in turn. 3. Check the jobs listed after each pick.		
Expected result	Only jobs in the chosen category are listed.		
Actual result	Behaved as expected		

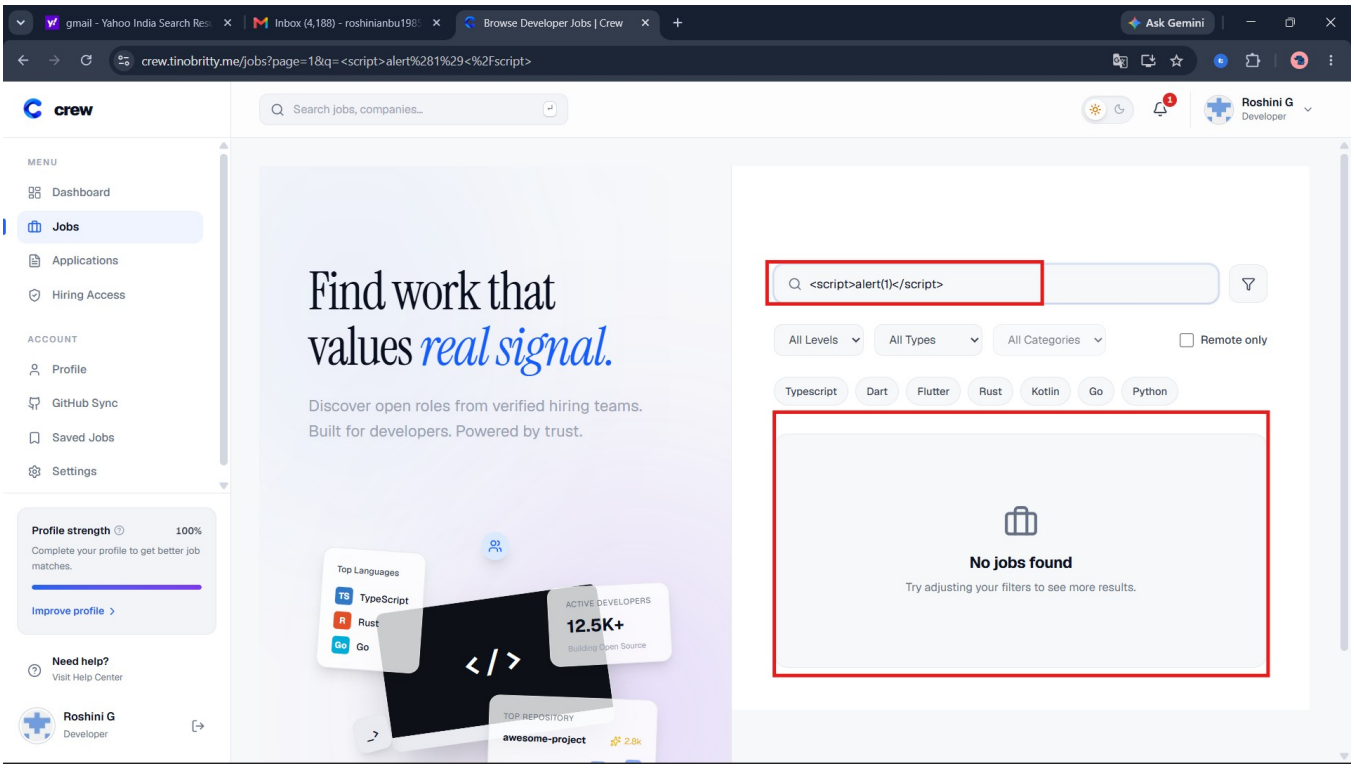

LST-13 Skill chip filters the list			
Priority	**Medium**	**Type**	Positive
Requirement	R1 Job listings	**Environment**	Live portal
Severity if it fails	Major	**Execution**	Manual
Status	**Pass**	**Bug report**	-
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Note whether you are signed in or signed out. Read-only: nothing is submitted or changed.		
Test data	Chip: Typescript		
Steps	1. Open /jobs. 2. Click the Typescript skill chip. 3. Check the jobs listed.		
Expected result	Only jobs tagged with that skill are listed.		
Actual result	Behaved as expected (tester-confirmed).		
Notes	Chips behave as single-select. Treated as a design choice, not a defect.		

LST-17 Search ignores letter case			
Priority	**Medium**	**Type**	Positive
Requirement	R1 Job listings	**Environment**	Live portal
Severity if it fails	Minor	**Execution**	Manual
Status	Pass	**Bug report**	-
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Read-only: do not submit, save, bookmark or change anything.		
Test data	qa, QA, Qa, qA		
Steps	1. Open /jobs. 2. Search for "qa" and press Enter. Note the jobs listed. 3. Repeat with "QA", "Qa" and "qA".		
Expected result	All four searches list the same jobs (QA Engineer).		
Actual result	All four searches (qa, QA, Qa, qA) returned the same result: QA Engineer.		

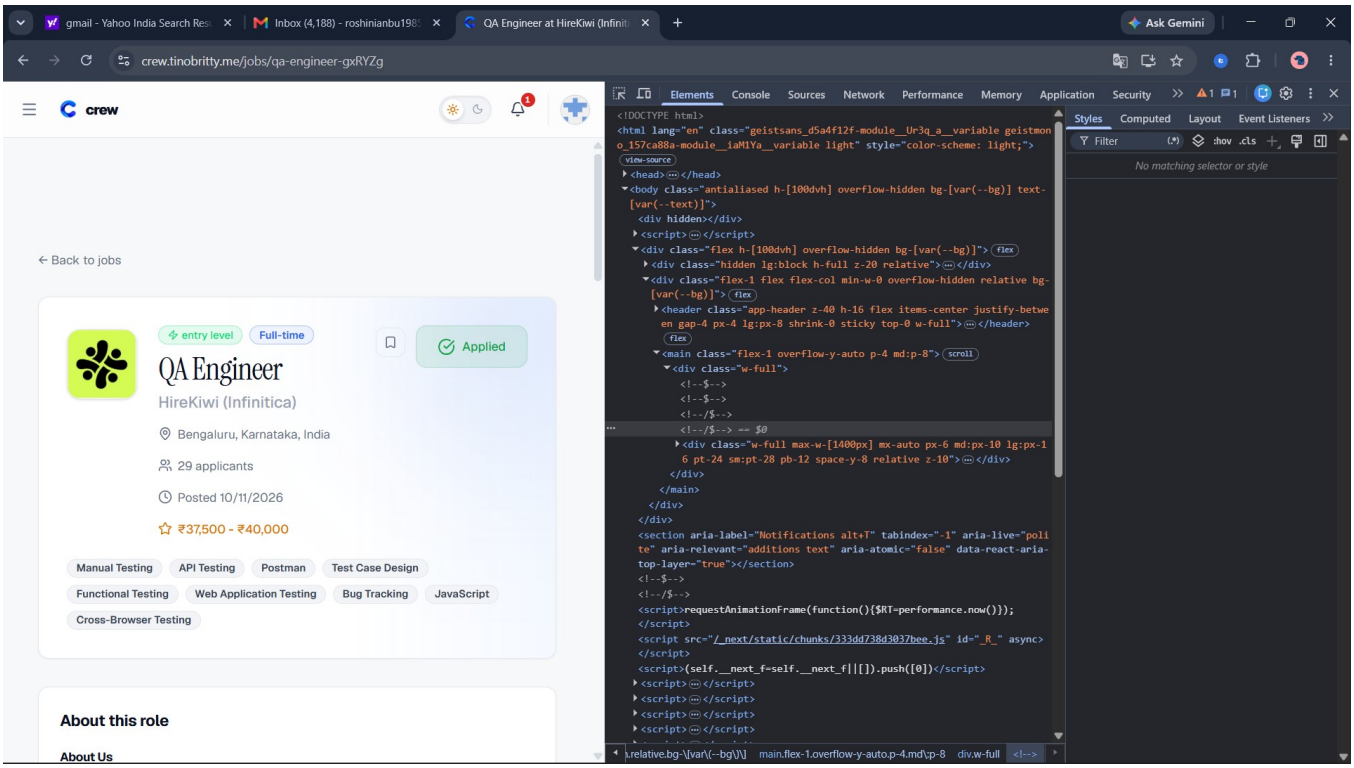

LST-18 Search with special characters and very long text does not break the page			
Priority	**Medium**	**Type**	Negative
Requirement	R1 Job listings	**Environment**	Live portal
Severity if it fails	Minor	**Execution**	Manual
Status	Pass	**Bug report**	-
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Read-only: do not submit, save, bookmark or change anything.		
Test data	<script>alert(1)</script> | 100% | a&b=c | 300 letters "a" | emoji		
Steps	1. Open /jobs. 2. Search for each value in turn, pressing Enter. 3. Watch for browser dialogs, error pages or broken layout. 4. Clear the search.		
Expected result	No dialog opens, no error page appears, the text is shown as plain text and the page says "No jobs found" or lists matches. The list returns when the search is cleared.		
Actual result	All five search inputs returned “No jobs found.” No browser alerts or error pages appeared, and the page remained usable.		
Notes	Safe: it only changes the address bar query, no data is written.		

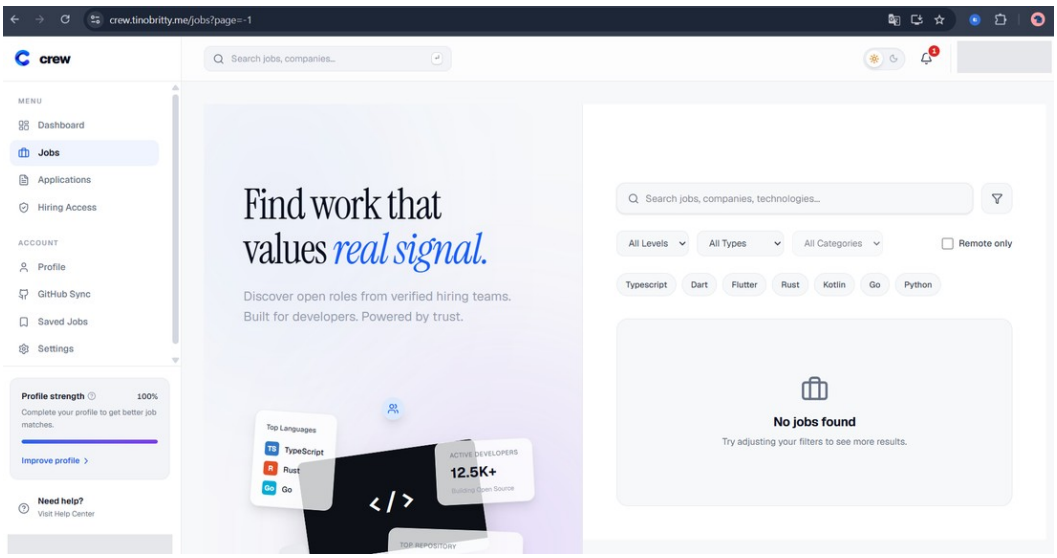

LST-20 A job opens in a new tab and survives refresh, Back and Forward			
Priority	**Medium**	**Type**	Positive
Requirement	R2 Navigation	**Environment**	Live portal
Severity if it fails	Minor	**Execution**	Manual
Status	Pass	**Bug report**	-
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Read-only: do not submit, save, bookmark or change anything.		
Test data	Any job		
Steps	1. Right-click (or Ctrl+click) a job title and open it in a new tab. 2. Do the same with View details. 3. In the new tab press Refresh. 4. Press Back, then Forward.		
Expected result	The same, correct job opens each time. Refresh keeps the same job. Back and Forward move between pages without errors.		
Actual result	Job title and View details navigation work correctly. Refresh, Back and Forward work as expected. The empty card area is not clickable.		

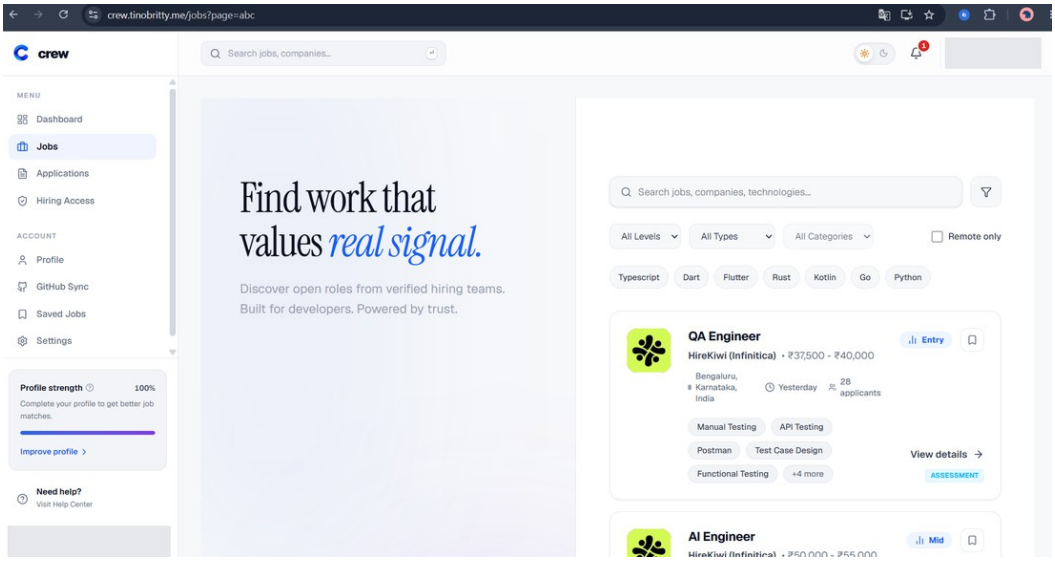

XBR-04 Listing page is usable at 375 px width (phone size)			
Priority	**Medium**	**Type**	Positive
Requirement	R6 Cross-browser behaviour	**Environment**	Live portal
Severity if it fails	Minor	**Execution**	Manual
Status	Pass	**Bug report**	-
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Read-only: do not submit, save, bookmark or change anything. Use the Chrome device toolbar (iPhone SE, 375 x 667).		
Test data	375 px viewport		
Steps	1. Open /jobs in the device toolbar at 375 px. 2. Check for sideways scrolling. 3. Use search and one filter. 4. Open one job.		
Expected result	No sideways scrolling, filters and cards are readable, the job opens.		
Actual result	At 375 px width, the listing page displayed correctly without horizontal scrolling. Search, filters, job cards and job details were usable and readable.		

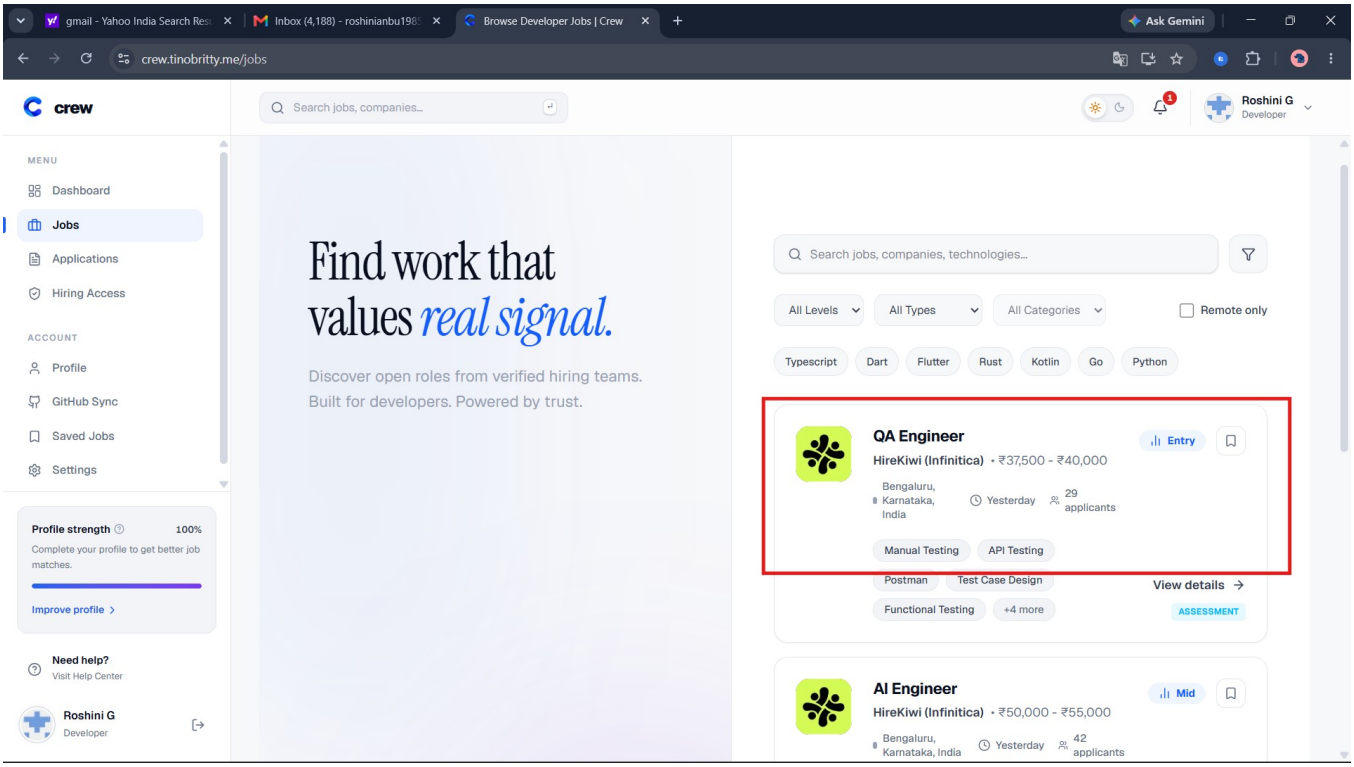

4. Low priority cases (3)

LST-09 Invalid URL parameters are handled consistently			
Priority	**Low**	**Type**	Boundary
Requirement	R2 Navigation	**Environment**	Live portal
Severity if it fails	Minor	**Execution**	Manual
Status	**Fail**	**Bug report**	Raised, see Bug Reports
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Note whether you are signed in or signed out. Read-only: nothing is submitted or changed.		
Test data	page=0, page=abc, page=-1, type=abc		
Steps	1. Open /jobs?page=0. 2. Open /jobs?page=abc. 3. Open /jobs?page=-1. 4. Open /jobs?type=abc.		
Expected result	Invalid values fall back or are explained, in the same way for all of them.		
Actual result	page=0 and page=abc show jobs. page=-1 shows "No jobs found". type=abc shows 0 jobs while the dropdown reads "All Types".		

LST-10 Whole job card is clickable			
Priority	**Low**	**Type**	Positive
Requirement	R2 Navigation	**Environment**	Live portal
Severity if it fails	Minor	**Execution**	Manual
Status	**Fail**	**Bug report**	Raised, see Bug Reports
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Note whether you are signed in or signed out. Read-only: nothing is submitted or changed.		
Test data	Any job card		
Steps	1. Open /jobs. 2. Click the empty area inside a card, away from the title and View details.		
Expected result	The job opens, or the page shows that only the link is clickable.		
Actual result	Nothing happened. Title and View details both open the job.		

LST-19 Posted date and applicant count agree between card and detail page

Priority	Low	Type	Positive
Requirement	R1 Job listings	Environment	Live portal
Severity if it fails	Minor	Execution	Manual
Status	Fail	Bug report	Raised, see Bug Reports
Preconditions	Live portal reachable at https://crew.tinobritty.me/jobs. Read-only: do not submit, save, bookmark or change anything.		
Test data	QA Engineer		
Steps	1. On /jobs note the posted time ("Yesterday") and the applicant count on the QA Engineer card. 2. Open the detail page straight away and note the posted date and applicant count. 3. Compare.		
Expected result	Both pages show the same applicant count and a posted date that matches "Yesterday". The date format is unambiguous for Indian users (for example 11 Oct 2026).		
Actual result	The job card shows “Yesterday” (12/10/2026), but the detail page shows “Posted 10/11/2026” (11 October 2026 in MM/DD/YYYY format). The dates do not match.
